

Studio Photographer

Science Museum Group

The Science Museum Group (SMG), which includes the London Science Museum and the National Railway Museum in York, is world renowned for its historic collections, awe-inspiring galleries and inspirational exhibitions. Our vision is to be the best place in the world for people to enjoy science.

As part of the pre-planning for the new Making Modern Communications gallery the Science Museum offers a rare opportunity for an enthusiastic and commercially minded photographer to work part-time, three days per week, for three months as part of a small dedicated team producing technically informative and creatively exciting digital images of objects from the Shipping gallery during the decant. Resulting images will be reproduction standard and provide a high quality visual resource of this unique collection suitable for commercial exploitation and research. Images will also be used to showcase our collections through on-line resources.

Consistently high levels of throughput and quality and an ability to work quickly and efficiently as part of a dedicated team are essential to the delivery of this project. The successful applicant will therefore need to demonstrate, by way of their CV, portfolio and practical exercise, appropriate digital photographic and post production skills and an ability to work well in a small team environment to produce creative and interesting studio quality photographs under pressure.

The successful candidate will need to have good communication skills and be flexible in their approach to the work, to ensure delivery of this project on time.

If you feel you have the qualities we are looking for and would like full details, then please visit www.sciencemuseum.org.uk/jobs If you have any specific questions please email David Exton david.exton@sciencemuseum.org.uk Applications should be by CV and covering letter, including the URL to a small number of portfolio images you feel are appropriate in support this application.

The closing date for applications is 30th May and interviews will be held soon after.

We will only be able to consider your application if you have taken care to show us why you are right for this role. In your covering letter please consider the following:

- Why do you feel you are suitable for this role? Please focus only on the experience you consider to be most relevant.
- How do your knowledge and skills match the requirements of the job description?
- Are you eligible to work in the UK and can you bring proof of eligibility (passport, working visa) to the interview with you?
- If successful are you available for a training day during June and to begin work from or soon after 2 July 2012?

We welcome applications from all sections of the community in which we work. We particularly welcome applications from disabled people and we guarantee interviews to suitably qualified disabled applicants.
