Treasures of Cumbria – Website creation – Invitation to Tender

Treasures of Cumbria is an exciting new project which looks to stimulate the people of Cumbria into becoming interested in and actively engaged with both its museum collections, and its wider heritage and history.

Delivered across a mix of platforms - online, mobile, print, radio and more - Treasures of Cumbria creates a level-playing field for museums, community groups and individuals to create, edit, vote and comment on the 'Treasures' of the county.

Following a successful scoping and planning phase, we are looking for an agency to implement the heart of the project, the Treasures of Cumbria website. We are particularly interested in innovative technical approaches for implementing both the front- and back-end interfaces, and for streamlined production processes to help us hit our launch date in Autumn 2013.

A mix of creative, technical and editorial challenges, this is a great project for any agency wishing to make a mark on the Heritage sector!
